Zagrożenia w środowisku pracy związane z pandemią COVID-19

Zestawienie obcojęzycznych źródeł informacji

Zestawienie obejmuje wybrane wyniki wyszukiwań tematycznych, prowadzonych w międzynarodowych bazach elektronicznych zasobów informacyjnych, udostępnianych w ramach tzw. licencji krajowych (Wirtualna Biblioteka Nauki – WBN) oraz w bazach subskrybowanych przez Centralny Instytut Ochrony Pracy – Państwowy Instytut Badawczy (ProQuest, IEEE/IET, OSH-UPDATE), a także w innych źródłach zamieszczonych w internecie.

Zasoby wymienione w zestawieniu są dostępne w CIOP-PIB (m.in. w czytelni Instytutu, poprzez stronę internetową Biblioteki: www.ciop.pl/biblioteka), a także w wielu innych jednostkach naukowych i badawczo-rozwojowych korzystających z dostępu do światowych zasobów wiedzy. Większa część wyszukanych pozycji bibliograficznych jest dostępna na zasadzie tzw. otwartego dostępu. W trakcie wyszukiwań posługiwano się m.in. multiwyszukiwarką zasobów naukowych, integrującą w znacznym stopniu zasoby dostępne w Instytucie.

Wykorzystywane wyrażenia wyszukiwawcze obejmowały problematykę zagrożeń związanych z pandemią COVID-19 oraz środowiskiem pracy. Były to takie wyrażenia jak m.in.: *COVID-19 AND work*, *COVID-19 AND occupational hazard*. Wyniki wyszukiwań zawężano do recenzowanych zasobów informacyjnych (przede wszystkim artykułów naukowych z obcojęzycznych czasopism), obejmujących publikacje z lat 2020-2021 (do lipca 2021).
